Top story on BI, wow.

I know Julia, she asked me about [this](#)

is this kyle bass? [https://www.facebook.com/petrobras](#)

I see the rumors, but it's not a verified account, so even if I could disclose, I would have no way of knowing.

Got it.

yesterday:

I shot her the link this morning and the link to our YE release, which focuses on our growth and software: bit.ly/1Z1abSv

Link to an article in Forbes going through the thesis and agreeing with it, and touting that he had these views out a while back. This author is one of the Seeking Alpha "experts" focused solely on REITs

I'll be in touch if I encounter anything interesting.

The powerpoint will work well with our viewer. We convert the doc to HTML and then re-display with a native viewer that allows us to customize security settings for clients (custom watermarks, removing download ability, tracking etc).

Thanks for the feedback on the PDF toggle. It's something we can explain with a tool tip for posts with multiple attachments. We find it to be a poor reader experience to display multiple attachments consecutively given the majority of readers don't progress beyond the page fold.

Thanks Peter. Please ping us when it is up. For what its worth, many people that clicked to yesterday's post didn't know how to get the Letter to the Auditor on PDF2.

Will the powerpoint work well in its current format?
